PROTECTING GRAIN.

There is an immense loss to the far mers of the West, caused by exposure of grain in the shock after harvest. No an idea of the quantity that is exposed to the weather, many of the shocks hav Western States, then coming into that market, is sprouted? A number of samples of otherwise beautiful grain, were shown us that were considerably grown. Besides what is lost in the field, that which is shipped to market in this condition, will not bring the full market price, and the loss in the aggregate, to the country the present season, will be many thousands of dollars.

Two years ago the complaint of sprouted wheat was almost universal, and in some sections the evil was so great that Is the great Continental Remedy for Syphilia many farmers could not procure suffi-

A MEDICAL REVOLUTION? THE WORLD UNANIMOU

THE GREAT COUNTER IRRITANT

The virtue of disease often makes its way i the internal organs through the porce of the skin. This penetrating Ointment, melting un-der the hand as it is rubbed in, is absorbed thro the same channels, and, reaching the seat of in-flamation, promply and invariably subdues it, whether located in the kidneys, the liver, the lungs, or any other important organ. It pene-trates the surface to the interior, through the countless tabes that communicate with the skin as summer rain passes into the fevered earth, diffusing its cool and regenerating influence.

Skin Diseases and Glandular Swellings. Every species of exterior irritation is quickly reduced by the anti-inflammatory action of this Outstment. Angra Eauprions, such as Salt Rucce, Environmental Triver Ringwoon, Scale Head, Nettle Rash, Scales (or Itch) &c., die out, to return no more, under its application.— Hospital experience in all parts of the world proves its infallibility in discases of the skin, the muscles, the joints and the glands. ULCERS, SORES AND TUMORS.

The effect of this unrivaled external remedy npon Scrofuls, and other virulent u'cers and sores, is almost miraculous. It first discharges the poison which produces supportation and proud flesh, and thus the cures which its healing properties afterward complete are safe as well a Wounds, Bruises, Burns and Fealds.

In cases of the fracture of hones, injuries caused hysteam explosions, Bucises, Bunns, Scalpt. gists, at 50 cents per bottle. Rueumatise, Stiffness of the Joints, and c ntraction of the sinews, it is employed and warm-ly recommended by the faculty. This marrelous remedy has been introduced by its inventor in person into all the leading Hospitals of Europe, and no private household should be without it. UNDENIABLE TESTIMONY.
